**DETAILED ACTION**

***Election/Restrictions***

Applicant's election without traverse of Group I, claims 1-8 and 10-25, in the reply filed on 4/8/08 is acknowledged.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 10-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 10-16 depend from a non-elected claim.

***Allowable Subject Matter***

Claims 1-8 and 17-25 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: the prior art does not disclose or suggest partially combusting the sulfurous fuel in a first stage of a combustion system with low NO<sub>x</sub> burners and SCR, wherein the reducing environment is maintained such that SO<sub>3</sub> is reduced to a desirable level of SO<sub>2</sub>, in the method of controlling SO<sub>3</sub> flue gas

concentration in a combustion process utilizing a SCR of the instant claim 1.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Cichanowicz discloses a multi-stage process for SCR of NO<sub>x</sub> (abstract); Chu et al. US 5,585,081 discloses a SO<sub>x</sub> and NO<sub>x</sub> particulate removal system (abstract).
